Woodcut Advanced Expert Techniques in Woodblock Printing

mit **Ulisses Lociks**

This course offers, for those who already have some basic understanding of relief printmaking, an opportunity to learn and develop practices that will expand their expressive possibilities within the woodblock printing technique.

WHAT TO EXPECT

Aiming to increase students' technical capacity to pursue their creative goals, this course will provide students with the tools that allow them to deepen and expand their knowledge and skills within woodcuts. To this end, the course is divided into three main topics that cover processes that have multiple applications, allowing the student a greater number of possible paths. These topics are as follows:

■ Tones and textures:

- Line control practices
- Development of tone scales to create gradations of light and dark
- Exploration of textures and their possible relationships with the creation of tones

■ Use of multiple blocks and colors:

- Presentation of ways to use multiple blocks and colors to create a multicolor print
- Creation of registration forms for printing a series that uses multiple blocks (matrix) and colors
- Exploration of the expressive possibilities of the non-inked area of the block (white space) as texture and volume in the print

■ Using a printing press:
